Cedarapids® Portable Plants

CRS820H Screen Plant

The Cedarapids® CRS820H screen plant features the popular 8' x 20' (2438mm x 6096mm) TSV8203 screen, along with a flex shaft screen drive and roll-away blending chutes, make this a leader in the screen plant market. The wide conveyor belts handle peak load conditions easily. The plant is designed to get the most out of the screen so there is plenty of capacity to make the crushers the bottleneck in the circuit, not the screen.

- Standard extended fines conveyor
- Optional hinged fines conveyor folds for export
